One clear recommendation

Not a list of options, not a maybe. One call that answers two things.

1. **Where we raise next**
   One market, named, and why it can take the rise.

2. **By how much**
   One step up, in that market's currency, and why not further.

The numbers, market by market

When leadership asks why that market and why that far, the numbers are right here.
